

Instructions For Smart Lane (Smart Security System)

1

Take a tray **from the bottom shelf**, and then place your baggage and outerwear into the tray.

- ※ Please make sure that your baggage and outerwear fit inside the tray.
- ※ Please use multiple trays if you have a lot of baggage.

There is no need to remove laptops and liquid items such as water bottles from your baggage when screening.

2

Proceed to the front if you are ready.

!

After passing through the inspection device, your baggage will be stopped once. Please do not pull the tray yourself.

3

After screening, please pick up your baggage.

- ※ Please return used trays to the return counter.
